

ATWEST AGM

Sometimes I'm a plonker! I remembered to take the camera to the AGM but in all the excitement of filling flasks with boiling water for tea, setting out biscuits, taking notes at a pre-AGM Directors' meeting and all the other stuff that needed doing, I forgot to take a picture of all of you who managed to attend! So here is the hall after you'd all left and before we put the chairs away!

It was a very good meeting. The formal bits necessary for Atwest to comply with the Companies Act included reports from the Chairman of the Directors, the Treasurer and the manager, and then the meeting was opened up to the audience. There were about 40 of you there, both individual passengers and those representing groups or other passengers. The main point of discussion was the potential changes in the Concessionary Fare Scheme and the main points from this are that a) no decisions have yet been made by Somerset County Council and b) it is definitely worth writing to local and county councillors to make sure they know and understand how important our services are to you, and how much the loss of the Fare Scheme would impact on your lives and independence.

If you would like a copy of the minutes please let us know in the office.
